TECTERRA Geomatics Lab offers Alberta companies and university applied research projects access to state-of-the-art geomatics technology development equipment. The equipment is available exclusively for product development and test for commercialization purposes. The equipment is also available for technology trial and demonstration as well as evaluation of new geomatics applications.

For more information please contact TECTERRA: labtech@tecterra.com

Portfolio Companies:	Companies that currently have a project funded by TECTERRA
Startups:	Companies that are less than 4 years old, have fewer than 12 employees and less than \$1M in yearly revenue
General Industry:	Companies that do not fit either above category

Prices and Equipment as of: December 20, 2011
